My current salary is 30K, Our company website (<a href="https://evelynlearning.com/">https://evelynlearning.com/</a>). Go to this site to check &amp; read about my company. Linkedin id (<a href="https://in.linkedin.com/company/evelyn-learning-systems-pvt-ltd-">https://in.linkedin.com/company/evelyn-learning-systems-pvt-ltd-</a>) But I don't get this position easily so, today I tell everyone, how I get this position, first of all, I complete my computer studies in BCA from IGNOU and H.J.Bhabha Institute Mayur Vihar Phase-I, Delhi.         </p> <p>             In this institute, I took <u>C.O.P.A.</u> trade in 2018-2019, and I am happy to choose it. I would like to especially thank P.K.Verma sir and Mamta ma'am. These teachers are really great, they both taught me a lot in 1 year like excel, VBA, programming, internet, networking, CMD commands, and I am very happy that I got to learn all this from them both. After I finished my 1-year course in COPA trade from ITI, then I applied for a job in a different company and then In the last days of August 2019, I got a job offer for data entry operator from this company then I joined this company in the DEO department and my job in this post is to create metadata sheets from different books like chemistry, Biology, Computer Science, Health, Physics etc. in google sheets. Basically our company deal's in the education field. After completing 07 months, I move to another project Called as AT (Authoring Tool). An authoring tool is a project name and in this project, my work is to upload questions and answers in our portal. This is the course's hero. Here is our portal link (<a href="https://www.coursehero.com/">https://www.coursehero.com/</a>). You all see our portal, and then I complete my 1<sup>st</sup> year in two different projects. My designation is going to upper and now I am working as Project Coordinator and my job in this post is to coordinate our team and manage all types of google sheets sending reports and emails to higher authorities and I am happy to work for this company.         </p>
2.	<p>             I, Mohd. Zaid have completed my course in <u>C.O.P.A.</u> trade in the session year 2017-18 from H.J. To more about my organization and its contribution in developing metro city transportation, can visit our website (<a href="https://www.delhimetrorail.com/">https://www.delhimetrorail.com/</a>). It has been <b>17</b> years working in this esteemed organization. My current CTC is approx. 15Lakh.</p> <p>Actually my entry in this institute was not part of my career planning initially. Before this I did my BSc (H) from Delhi University and immediately after this I thought to get some technical skillfulness, so got admission in <b>Electronic Trade</b> (1999-2001). I completed my certificate course from H. J. Bhabha Institute Mayur Vihar Phase-3, Kichdi Pur under the esteemed guidance of <b>Neeta Mam</b> and <b>Sujata Mam</b>. Both the teachers are really so skilful and they know what to deliver to student and how to do it to enhance technical and practical knowledge of their students. They taught us all basics of Electronics and prepared fundamentally strong technical person. Under such great &amp; knowledgeable teachers I got merit scholarship and participated in ITI state level competition. With such great mentorship I explored Electronics and due to this keenness to know more about EC branch I further did my Degree course in Electronic and Telecommunication Engineering (AMIE). To enhance my professional skills further I did <b>MBA (Operational Research)</b> from IGNOU that helps a lot to know more about organization functional structure.</p> <p>With my current position I am working on world latest and advanced technology i.e. <b>Communication Based Train Control system (CBTC)</b> which is applied for light railways and urban mass-transit system. This technology was invented in 1872 as first fail safe track circuit and method of block occupancy detection. In India this is the first time when any existing railway system is implementing such advanced technology. It's safe and reliable with increased line capacity &amp; resources. Being DMRC employee we are proud to serve our country and people.</p>
